SUMMARY

Junior UX/UI designer studying UX Design at Medieinstitutet, with internship experience at WebRay Studio and freelance design experience since 2023. Skilled in user research, wireframing, prototyping and visual design in Figma, with a graphic design background and a focus on accessible, user-centered solutions. Fluent in Swedish and English, with a support background that built a strong user-needs mindset. Open to junior UX/UI roles and LIA internships.

EDUCATION

UX Design | Medieinstitutet 2025 – Present
- Focus: user-centered design, interaction design, prototyping and usability testing

Upper Secondary School, Visual Arts & Design | Cybergymnasiet 2020 – 2023
- Focus: visual communication, color theory, typography and graphic design

SKILLS

- **UX Research:** User Interviews, Surveys, Affinity Mapping, HMW Questions, Usability Testing, User Journeys, Digital Accessibility
- **UX/UI Design:** User Flows, Wireframing, Prototyping, Design Systems, Visual Hierarchy, Color Theory, Typography, Visual Identity
- **Tools:** Figma, FigJam, Adobe XD, Miro, Maze, Optimal Workshop, Notion, Photoshop, Illustrator, InDesign
- **Additional:** HTML, CSS, Google Workspace, Microsoft Office, Canva

PROJECTS

Audio Experience, UX Research | UX Researcher 2025
- Research: interviews and a survey on how people discover, organize and share music, podcasts and other audio
- Process: affinity mapping in Miro → patterns → pain points → HMW questions → ideation
- Outcome: concepts for a unified, personalized and more social audio experience

Volo Nordic Hotel, Mobile Booking App | UX/UI Designer 2025
- Designed a golden path and user flow for fast room booking on mobile
- Built wireframes and a clickable prototype in Figma; user testing showed the flow was intuitive

Prestationsverket, E-commerce Analysis & Redesign | UI Designer 2025
- Research: analysed the poster shop and found unclear structure and inconsistent visuals
- Solution: a design system and redesigned pages to make browsing and purchasing easier

EXPERIENCE

UX/UI Design Intern | WebRay Studio, Stockholm 2026
- Designed the UX/UI for Canopy in Figma: mood boards, wireframes, prototypes and final UI
- Explored alternative design concepts across several iterations and refined them based on feedback
- Applied visual hierarchy, color theory, typography and layout, working independently from concept to final design

Freelance Designer 2023 – Present
- Created visual identities, logos and graphic concepts for self-employed clients in Sweden and abroad
- Managed each project from brief and research through ideation and prototyping to final delivery

Support Assistant | City of Stockholm 2021
- Provided individual support to adults with disabilities, adapted to each person’s needs: user-needs understanding in practice
- Built strong empathy and clear communication

COURSES & LANGUAGES

Introduction to UX & UI Design, Udemy (2023) | Figma UI/UX Design Advanced, Udemy (2023)
Swedish: fluent | English: native
